

Best Tasting Water Contest

Bring a sample of the water produced by your system to FRWA's 2010 Annual Conference at the Hyatt Regency Jacksonville Riverfront to match your system against the best in the State! Your sample should be in a one quart container on ice and submitted to the FRWA Registration Desk on Tuesday, August 31, 2010 before 2:00 pm (You may pick your container and cooler up at the FRWA Booth in the Exhibit Hall before Wednesday, September 1, 2010 before 11:00 a.m.)

A panel of distinguished taste testers from throughout the state will judge each sample on color, odor, taste, touch, and quench factor. The winner will be eligible to compete against other states at the 2010 National Rural Water Association's Water Rally in Washington, DC.

Wouldn't it be great for your system to win the title of "The Best Tasting Water in Florida"!
