The Coral Springs Improvement District is seeking qualified employees in the following fields

Chief Wastewater Plant Operator:

Applicants must have a valid Class A Wastewater Treatment license and a minimum of five (5) years supervisory experience in the wastewater treatment facility.

The Chief Wastewater Operator oversees and directs the operation of the District's wastewater treatment plant. Employees in this category possess comprehensive understanding of wastewater treatment plant operations, and are responsible for ensuring compliance with state and federal regulatory standards. Responsible for enforcement of all applicable District policies, rules and regulations, budget preparations, capital improvements planning, staffing and training of personnel, including performance appraisals, and personnel selection as well as ensuring all safety procedures and policies are followed.

Salary range \$73,292. - \$91,083. Salary to commensurate relative to level of experience in this field.

Wastewater Plant Lead Operator:

Applicants must have a valid Class A Wastewater Treatment license and a minimum of 3 years supervisory experience.

The lead operator operates the Districts wastewater plant; assists in ensuring plant compliance with all state and federal regulatory criteria and all safety policies and procedures. Reports directly to the WTPP Chief Operator. Provides instruction and leadership to subordinate operators and trainees as assigned.

This is a highly responsible, technical, and supervisory position requiring 24 hour availability. Exercise of initiative and independent judgment is required in providing guidance and supervision for continuous operation.

Salary range: \$63,000 - \$76,956. Salary to commensurate relative to level of experience in this field.

Water Plant Lead Operator:

Applicants must have a valid Class A Water Treatment license and a minimum of 3 years supervisory experience.

The Lead Water Operator operates the Districts water plant, assists in ensuring plant compliance with all state and federal regulatory criteria and all safety policies and procedures. This position reports directly to the WTP Chief Operator. Provides instruction and leadership to subordinate operators and trainees as assigned.

This position requires experience in nano filtration/reverse osmosis.

This is a highly responsible, technical, and supervisory position requiring 24 hour availability. Exercise of initiative and independent judgment is required in providing guidance and supervision for continuous operation.

Salary range: \$63,000 - \$76,959. Salary to commensurate relative to level of experience in this field.

Benefits:

Excellent benefits which include health, life, disability, dental, vision and a retirement plan which includes a 6% non-contributory defined benefit and matching 457b plan with a 100% match up to 6%. EOE.

All positions require a valid Florida Drivers license, high school diploma or GED equivalent and must pass a pre-employment drug screen test

Salaries for the above position based on level of licensing and years of experience.
